6	Enter the smaller of Line 5 or \$12,500	6	

PLEASE COMPLETE A SEPARATE WORKSHEET FOR EACH WIND OR SOLAR ENERGY SYSTEM FOR WHICH YOU ARE REQUESTING A CREDIT, IF NEEDED AND ATTACH TO PAGE 1

LSA-R.S. 47:6030 provides for a credit against income tax for the purchase and installation of a wind energy system or solar energy system, or both, by a resident individual at his residence located in this state, or by the owner of a residential rental apartment project. The credit may also be claimed in cases where the individual purchases for his residence a newly constructed home with a system already installed. Please retain copies of this form and the purchase invoice(s) or other documents that support the amounts entered on lines 1, 2, and 3 for review by the Department of Revenue upon request for verification of solar and/or wind energy system costs related to this credit.

#### ATTACH ADDITIONAL SHEETS IF NEEDED

Louisiana Administrative Code 61:1.1907 requires certain information about the system be provided to determine eligibility for the credit. Below is a list of additional information required about the wind and/or solar system. Failure to provide this information may result in the disallowance of the credit.

- 1. A copy of the modeled array output report using the PV Watts Solar System Performance Calculator. The calculator was developed by the National Renewable Energy Laboratory and is available at the website <a href="https://www.nrel.gov/rredc/pvwatts">www.nrel.gov/rredc/pvwatts</a>. The analysis must be performed using the default PV Watts de-rate factor.
- 2. A copy of the solar site shading analysis conducted on the installation site using a recognized industry site assessment tool such as a Solar Pathfinder or Solmetric demonstrating the suitability of the site for installation of a solar energy system.
